## SUMMARY

---

Results-driven Full-Stack Developer and Technical Lead with expertise in architecting scalable SaaS platforms and AI-integrated applications. Proficient in the modern JavaScript ecosystem, specializing in Next.js (App Router), TypeScript, React, and Node.js. Adept at leading cross-functional teams, driving the end-to-end product lifecycle, and implementing robust system architectures—including the Repository Pattern—to deliver high-performance user experiences.

## SKILLS

---

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3

**Frontend Frameworks & UI:** React.js, Next.js (App Router), Tailwind CSS, Framer Motion, TanStack Query, shadcn/ui

**Backend & Runtime:** Node.js, Express, NestJS, Strapi CMS, REST APIs, WebSockets

**Databases & ORMs:** PostgreSQL, MySQL, MongoDB, Prisma

**DevOps & Cloud:** Vercel, Docker, GitHub Actions, CI/CD pipelines

**AI & Advanced Tooling:** Claude AI, LLM APIs, Model Context Protocol (MCP), Copilot, Antigravity

**API Testing & QA:** Postman, Playwright, Jest, TDD

**Monitoring & Analytics:** Sentry, PostHog

**Methodologies:** Agile, Scrum, OOP, DRY Principles

## EXPERIENCE

---

### Technical Lead

Jun 2025 – Present

*Job Academy (HR, Audit & Finance) | Yangon, Myanmar (Remote)*

- Spearheaded the end-to-end architecture and launch of a high-traffic job portal and e-learning platform, successfully delivering a proprietary AI-powered resume generation engine.
- Owned the platform's technical vision, establishing robust system architectures utilizing the Repository Pattern to translate complex business requirements into actionable engineering sprints.
- Managed the complete product lifecycle by leading and aligning cross-functional teams of developers, designers, QA engineers, and marketing personnel from concept through production.
- Engineered the core security infrastructure, implementing robust authentication systems, authorization middlewares, and secure LinkedIn OAuth integrations.
- Ensured platform reliability and optimized performance by establishing automated deployment pipelines, rigorous testing protocols, and continuous improvement workflows.

**Projects:** [Job Academy](#), [Goodwill Advisory](#)

**Tech Stack:** Next.js (App Router), TypeScript, Prisma, PostgreSQL, AI/LLM Integration, Tailwind CSS, Figma

## Full-Stack Developer

Jan 2026 – Jun 2026

*NexStack (AI Software & Automation Company) | Singapore (Remote)*

- Architected scalable SaaS platforms utilizing Next.js and TypeScript, crafting highly reusable frontend components with shadcn/ui and Tailwind CSS for intuitive, responsive user interfaces.
- Built resilient backend services, authentication systems, and APIs leveraging Hono, Strapi CMS, Prisma, and PostgreSQL to deliver optimized database solutions.
- Led the Wassenger project by successfully integrating the WhatsApp Green API with WebSockets to enable robust, real-time messaging and seamless communication workflows.
- Collaborated closely with clients to gather detailed technical requirements, utilizing Fallow to map project workflows and design robust system architectures.
- Leveraged advanced development utilities including Hermes and Codex Skill to accelerate code generation, integrating the Ponytail ruleset to enforce lean, maintainable code.

**Projects:** [JHI](#), Wassenger, [Vivata](#)

**Tech Stack:** Next.js, React, TypeScript, Hono, Strapi CMS, PostgreSQL, WebSockets

## AI-Assisted Software Engineer

Jan 2026 – Apr 2026

*Manifest Movies (Self-Improvement Platform) | United States (Remote)*

- Leveraged Claude AI and the Model Context Protocol (MCP) to accelerate the design-to-development cycle, enabling rapid codebase iterations and automated technical documentation updates.
- Engineered a fast-paced testing and deployment lifecycle directly driven by marketing statistics, utilizing PostHog to continuously track user conversions and adapt frontend features.
- Managed rigorous debugging and monitoring workflows utilizing Sentry and Playwright to maintain platform stability during rapid feature rollouts.
- Migrated core email infrastructure to Klaviyo, developing targeted lifecycle marketing automations and customer engagement campaigns.

**Projects:** [Manifest Movies](#)

**Tech Stack:** Next.js, React, TypeScript, Claude AI, Klaviyo, PostHog, Sentry, Playwright

## Junior Web Developer

Apr 2024 – Feb 2025

*Village Link (Agricultural Technology Company) | Yangon, Myanmar*

- Developed and shipped new core features for a high-traffic agricultural social platform, writing clean and scalable code utilizing Next.js, React, and TypeScript.
- Integrated complex third-party APIs and architected robust application state management to ensure seamless frontend workflows.
- Executed systematic testing, troubleshooting, and bug resolution protocols, significantly enhancing application stability and the overall user experience.
- Authored and maintained comprehensive technical documentation and Product Requirement Documents (PRDs) to align engineering and business teams.

**Projects:** [Htwet Toe](#)  
**Tech Stack:** Next.js, React, TypeScript, Jira, Confluence

**Software Engineer Intern**

Nov 2023 – Feb 2024

*Yoma Fleet (Fleet Management & Financial Solutions) | Yangon, Myanmar*

- Contributed to an internal R&D job application platform by engineering responsive UI components utilizing React and TypeScript.
- Executed manual testing, precise bug reporting, and comprehensive test case writing in close collaboration with the QA engineering team.
- Supported the preparation of Business Requirement Documentation (BRD) and facilitated seamless task implementation within a fast-paced Agile/Scrum environment.

**Projects:** [Yoma Fleet Careers](#), [Yoma Fleet Plus](#)  
**Tech Stack:** React, TypeScript, ClickUp, Odoo
