PROFILE

Full-Stack Developer with experience leading product development, building scalable web applications, and collaborating across engineering, design, QA, and business teams. Skilled in Next.js, TypeScript, Nest.js, Prisma, PostgreSQL, AI integrations, and modern SaaS architectures. Proven track record of translating business requirements into technical solutions and delivering products from concept to production.

EXPERIENCE

Technical Lead

Jun 2025 - Present

Job Academy (HR, Audit & Finance Services Provider) | Yangon, Myanmar (Remote)

- Led the end-to-end development of a job portal and an online learning platform featuring AI-powered resume generation.
- Gathered stakeholder requirements to formulate technical specifications, translating business needs into actionable development roadmaps.
- Coordinated cross-functional teams, including developers, designers, QA engineers, and marketing, throughout the product lifecycle.
- Designed and implemented secure authentication, authorization middlewares, and LinkedIn OAuth integration.
- Developed responsive landing pages and core platform features optimized for user engagement and conversion.
- Oversaw software testing, quality assurance workflows, deployment pipelines, and continuous product improvements.
- **Projects:** [Job Academy](#), [Goodwill Advisory](#)
- **Tech Stack:** Next.js, TypeScript, Prisma, PostgreSQL, AI/LLM Integration, Figma, ClickUp

Full-Stack Developer

Jan 2026 - Present

NexStack (AI Software & Automation Company) | Singapore (Remote)

- Develop full-stack applications and scalable SaaS platforms utilizing modern web technologies.
- Collaborate with clients to gather detailed technical requirements and design robust system architectures.
- Build resilient backend services, RESTful APIs, authentication systems, and optimized database solutions.
- Implement highly reusable frontend components and create intuitive, responsive user interfaces.
- Apply Agile methodologies and software engineering best practices to ensure code maintainability and scalability.
- **Projects:** [JHI](#) (Events & Networking), [Wassenger](#) (WhatsApp AI), [Vivata](#) (Revit Extension Platform)
- **Tech Stack:** Next.js, React, TypeScript, Hono, Strapi, PostgreSQL, Prisma

AI-Assisted Software Engineer

Jan 2026 - Apr 2026

Manifest Movies (Self-improvement Platform) | US (Remote)

- Built and optimized customer-facing web experiences focusing on personal development and visualization using Next.js and React.
- Implemented rigorous monitoring and debugging workflows leveraging Sentry and Playwright for seamless operations.
- Migrated email infrastructure and engineered complex automation workflows within Klaviyo.

- Developed lifecycle marketing automations and targeted customer engagement campaigns.
- Integrated robust analytics and conversion tracking mechanisms utilizing PostHog.
- **Projects:** [Manifest Movies](#) (AI-powered personal development and visualization platform)
- **Tech Stack:** Next.js, React, TypeScript, Klaviyo, PostHog, Sentry, Playwright, ClickUp

Junior Web Developer

Apr 2024 - Feb 2025

Village Link (Agricultural Technology Company) | Yangon, Myanmar

- Developed and shipped new platform features for an agricultural social platform using Next.js and React.
- Integrated third-party APIs and managed complex application state for scalable frontend workflows.
- Performed systematic testing, troubleshooting, and bug resolution to enhance overall user experience.
- Contributed to comprehensive QA processes for agricultural mobile applications.
- Authored and maintained technical documentation, user guides, and Product Requirement Documents (PRDs).
- **Projects:** [Htwet Toe](#) (Agricultural Social Platform)
- **Tech Stack:** Next.js, React, TypeScript, Jira

TECHNICAL SKILLS

Frontend:	Next.js, React.js, TypeScript
Backend:	Node.js, Hono, Strapi, Nest.js
Database:	PostgreSQL, Prisma, MongoDB
AI:	AI/LLM Integration, Model Context Protocol (MCP)
Analytics & Marketing:	Klaviyo, PostHog
Tools & Monitoring:	Git, Figma, ClickUp, Playwright, Sentry, Jira
Methodologies:	Agile, OOP, DRY Principles

EDUCATION

Technological University (Thanlyin)	Myanmar
2016 - 2017:	Bachelor of Engineering in Electronics and Communication Engineering
2015 - 2016:	Bachelor of Technology in Electronics and Communication Engineering
2012 - 2014:	Associateship of Government Technical Institute in Electronics and Communication Engineering
